

This is a Sample Tex File to Illustrate the Use of IEEEtran.cls for VI EIEC

Bruce Springsteen, Eric Clapton, and John Mayall

Abstract—The abstract goes here.

Index Terms—Chiclana, large beaches, good fish, nice weather.

I. INTRODUCTION

THIS demo file is intended to serve as a “starter file” for “VI Iberian Meeting on Computational Electromagnetics” papers produced under \LaTeX using IEEEtran.cls version 1.7 and later. I wish you the best of success.

II. THE ORGANIZATION OF THE PAPER

The paper should be structured in sections, subsections and, if required, subsubsections.

Concerning Figures and Tables, the usual style of IEEE journals is adopted here. Please, avoid to include too many lettering inside the figure and let most of this information for the captions. If lettering is included, please be sure that this is legible.

Mathematical expressions generated by using any \LaTeX command set are suitable for our purposes.

PLEASE, send the following material with your final submission:

- 1) \LaTeX source files.
- 2) A zip or rar file with figures in eps or pdf format.
- 3) A pdf file with the final formatting desired by the authors (final formatting will be done by the organization to ensure homogeneity).

All this material should be emailed to medina@us.es before 10th of July 2008.

A. Subsection Heading Here

Subsection text here.

1) Subsubsection Heading Here: Subsubsection text here.

III. CONCLUSION

The conclusion goes here.

This work was supported in part by the Spanish Council of Research under Grant BS123456 (sponsor and financial support acknowledgment goes here). Paper titles should be written in uppercase and lowercase letters, not all uppercase. Avoid writing long formulas with subscripts in the title; short formulas that identify the elements are fine (e.g., “Nd-Fe-B”). Full names of authors are preferred in the author field.

B. Springsteen is with the Department of Electrical and Computer Engineering, Georgia Institute of Technology, Atlanta, GA, 30332 USA e-mail: (see <http://www.michaelshell.org/contact.html>).

E. Clapton and J. Mayall are with Anonymous University.

APPENDIX A

SUMMARIZING MAXWELL EQUATIONS

Appendix one text goes here.

APPENDIX B

Appendix two text goes here.

ACKNOWLEDGMENT

The authors would like to thank...

Bruce Springsteen Bruce Frederick Joseph Springsteen (born September 23, 1949) is an American songwriter, singer and guitarist. He has recorded and toured with the E Street Band. Springsteen is widely known for his brand of heartland rock infused with pop hooks, poetic lyrics, and Americana sentiments centered around his native New Jersey. His eloquence in expressing ordinary, everyday problems has earned him numerous awards, including eighteen Grammy Awards and an Academy Award, along with a notoriously dedicated and devoted global fan base. His most famous albums, *Born to Run* and *Born in the U.S.A.*, epitomize his penchant for finding grandeur in the struggles of daily life. He has sold over 65 million albums in the U.S.

Springsteen’s lyrics often concern men and women struggling to make ends meet. He has gradually become identified with progressive politics. Springsteen is also noted for his support of various relief and rebuilding efforts in New Jersey and elsewhere, and for his response to the September 11, 2001 attacks, on which his album *The Rising* reflects.

Eric Clapton Eric Patrick Clapton (born 30 March 1945), nicknamed Slowhand, is a 19 time Grammy Award-winning English rock guitarist, singer, songwriter and composer. He is one of the most successful musicians of the 20th and 21st centuries, garnering an unprecedented three inductions into the Rock and Roll Hall of Fame (The Yardbirds, Cream, and solo). Often viewed by critics and fans alike as one of the greatest guitarists of all time, Clapton was ranked fourth in Rolling Stone Magazine’s list of the “100 Greatest Guitarists of All Time” and # 53 on their list of the Immortals: 100 Greatest Artists of All Time.

Although Clapton’s musical style has varied throughout his career, it has always remained rooted in the blues. Clapton is credited as an innovator in several phases of his career, which have included blues-rock (with John Mayall & the Bluesbreakers and The Yardbirds) and psychedelic rock (with Cream). Clapton has also achieved great chart success in genres ranging from Delta blues (Me and Mr. Johnson) to pop (“Change the World”) and reggae (Bob Marley’s “I Shot the Sheriff”). Clapton also achieved fame with Derek and the Dominos through the hit song “Layla”.

John Mayall John Mayall, OBE (born 29 November 1933) is a pioneering English blues singer, songwriter, and multi-instrumentalist. His musical career spans over fifty years but the most notable episode in it occurred during the late '60s. He was the founder of John Mayall & the Bluesbreakers and has been influential in the careers of many instrumentalists, including Eric Clapton, Jack Bruce, Peter Green, John McVie, Mick Fleetwood, Mick Taylor, Don "Sugarcane" Harris, Harvey Mandel, Larry Taylor, Aynsley Dunbar, Jon Hiseman, Dick Heckstall-Smith, Andy Fraser, Johnny Almond, Jon Mark, Walter Trout and Coco Montoya.
